SUMMARY

Frontend-focused MERN Stack Developer with ~3 years of experience building scalable and responsive web applications using React.js, Node.js, and MongoDB.
Skilled in developing user-centric interfaces, integrating RESTful APIs, and implementing secure authentication systems. Experienced in building reusable components, optimizing performance, and delivering end-to-end features in fast-paced environments.
Currently seeking frontend or full-stack opportunities to contribute to impactful products and grow as an engineer.

EXPERIENCE

Frontend Developer / Web Platform Associate

Wizdom Ed

11/2023 - 12/2025 Mangalore, Karnataka

- Developed and maintained responsive and scalable UI components using React.js, improving overall user experience
- Integrated frontend applications with REST APIs to deliver dynamic and real-time features
- Built reusable and modular components to enhance development efficiency and maintainability
- Optimized frontend performance and ensured cross-browser compatibility

Software Engineer

Differentech Solutions

09/2022 - 06/2023 Mangalore, Karnataka

- Assisted in developing and maintaining web application features using JavaScript and React
- Implemented responsive UI designs ensuring compatibility across devices and browsers
- Worked on API integration to enhance application functionality
- Debugged and optimized frontend components to improve performance and user experience
- Collaborated with team members to deliver high-quality application features

EDUCATION

Bachelor of Engineering (B.E)

Canara Engineering College

06/2016 - 06/2020 Mangalore, Karnataka

SKILLS

Frontend

React.js, HTML5, CSS3, JavaScript (ES6+)

Backend

Node.js, Express.js, REST APIs

Database

MongoDB

Tools

Git, Postman, Vite

Concepts

JWT Authentication, API Integration

PROJECTS

PREP-Full Stack MERN Meal Planning Application

- Developed a full-stack MERN application for meal planning with dynamic grocery list generation. Built RESTful APIs using Node.js and Express, and implemented JWT-based authentication for secure user access. Designed optimized MongoDB schemas and deployed the application using Vercel and Render.

SkyPulse - Weather Dashboard

- Developed a responsive weather dashboard using JavaScript and REST APIs to display real-time weather data. Integrated OpenWeather and Open-Meteo APIs with asynchronous data fetching for dynamic UI updates. Designed a clean, mobile-friendly interface for improved user experience.

Apple Website Clone

- Built a responsive Apple website clone using HTML, CSS, and JavaScript focusing on pixel-perfect design. Implemented interactive UI components such as navigation menus and carousels. Ensured smooth user interactions and cross-device compatibility.
